

Professor Hong Lin

Hong Lin received B.S. degree from Department of Chemistry, Tsinghua University, China in 1987, and Ph.D. degree from Department of Applied Chemistry, Nagoya University, Japan in 1996. She had been an assistant professor in Institute for Chemical Research, Kyoto University, and a research scientist in AIST, Japan. She is currently the Fellow at School of Engineering, the University of Tokyo, and the Associated Editor for Science and Technology of Advanced Materials (STAM). Hong Lin already has more than 280 scientific publications. She is currently a full professor at School of Materials Science and Engineering in Tsinghua University, China, leading a research group focusing their interests on the design and preparation, surficial and interfacial chemistry, photochemistry and electrochemistry of nanomaterials and their application in low-carbon energy.
